

- Is mansik problem ko kaise manage kia jae?
- ye jivan ko control krne me hum log fass gae hai..
- 100% control lena possible hi nahi hai..
- Jinko bhi mante ho unka mansik naam jap karna start krdo..
- 100% process pr bharosa krne pr hi result hoga..
- Patience lana pdega.. Patience is very important...
- 100% Vishvas krke krte jao bina tention ke...
- Daily Diary, Screen share krke teach karo.. all things very very important..
- Mirror ke samne recording karte jao, interviews ko record krte raho..

- 40% Landing Zone
- 85% Terraform
- 80% Git
- 5% Pipeline
- 90% Draw.io, Intro, Use Case, Role and responsibilities, End to End Landing Zone with Automation (Very Very important)

Sab type ke landing zone ke SOP bana lo mast

- Monolithic Landing Zone
- Microservice Landing Zone
- ML Infra Landing Zone
- Agentic AI Infra Landing Zone
- Data Infra Landing Zone

- Terraform Child Parent Module Done
- Local pr landing zone banana is done
- GitHub pr trunk based branching strategy me code push done
- Antigravity and AI se infra pipeline with scan plan and apply stage is done
- Terraform Best Practices ke notes banane hai

- GitHub pr conflict kya hai?
- Kab aur kaise aata hai?
